A Rare Bargain in Land.

THE subscriber wishing to move to Aberdeen as he has property there, will sell all his lands, and the remainder of the small lots in the town of Mill Port, on the best of terms. He has near 700 acres of choice land at this place, formerly well improved, 180 acres of it empty fresh land, under good fences, and in good order for cultivation; considerable dwellings and out houses, &c. with a first rate new Cotton Gin and Press. This place is situated on the Fayetteville and Tuscaloosa road, 21 miles east of Columbus, Mississippi; is a most delightful situation; high and elevated, with plenty of good spring water and running creeks all round.—There are applications continually to purchase Lots in Mill Port, and the town has taken a very pretty start, and must be the county site of a new made county. The town is situated half a mile from the Loxley river which is, with very small improvements, navigable for keel boats, and is only a few miles from the rail road now chartered from the Tennessee valley to Mobile Bay. Mill Port is a great stand for a public house, and one is greatly needed.

The subscriber also has several places in this vicinity for sale, on the best of terms. Any information wanted, can be obtained by applying to James Swearingen at Columbus, Mississippi, or to me, who may be found almost at any time at Mill Port Ala.

IT has been found that one horse can carry a fifty saw gin, or a mill with as much ease as two can on the old plan, and can carry two saws on the same principle, and saw from six to eight hundred feet of lumber per day. The building of the machinery is about the same as on the old plan.

The people will do well to call at Mr. Estes' shop, Columbus, Mississippi, or Tuscaloosa, Alabama, and see a model of the machinery, and build on the plan, who wish to save their horses for business in the Spring. A lady of this village, had been suffering for several weeks with the tooth ache, and was immediately and permanently relieved by an application of the Balm. (7th)

Supplement to The Globe.

PROSPECTUS TO THE CONGRESSIONAL GLOBE AND APPENDIX.

FROM the experiment we have made it is ascertained that the patronage of the country will support our annual publication of the proceedings and speeches made in Congress. We therefore propose to improve the design, and confidently hope to improve and perfect it.

In giving, from week to week, a succinct and clear report of the proceedings of both branches of Congress—a brief and condensed report of the substance of the remarks of each speaker, using the precise words upon the main points touched—the year and days on all important questions, and concluding the volume after the adjournment, with an Index for reference, a great deal was done towards giving an accurate parliamentary history of the proceedings of one of the greatest and ablest representative assemblies in the world; an assembly on the deliberations of which the destinies of the free institutions of this country depend for their maintenance; and, therefore, in some degree, freedom throughout the world. Our original plan extended no further than this extent of the debates, with the proceedings, but at the last session we added an Appendix, to contain all the fully reported speeches, as prepared by the speakers themselves for publication. This extended the work from a single volume of 312 royal quarto pages, to two volumes, making together, 1184 royal quarto pages. These we have furnished to subscribers at the price of one dollar for each volume, both or either, to be furnished through the mail, as they fall from the press, in sheets, and chargeable only with newspaper postage, varying from a cent to a cent and a half per sheet.
